

# SHEDSHEET

**60 year proven life 20 year guarantee**

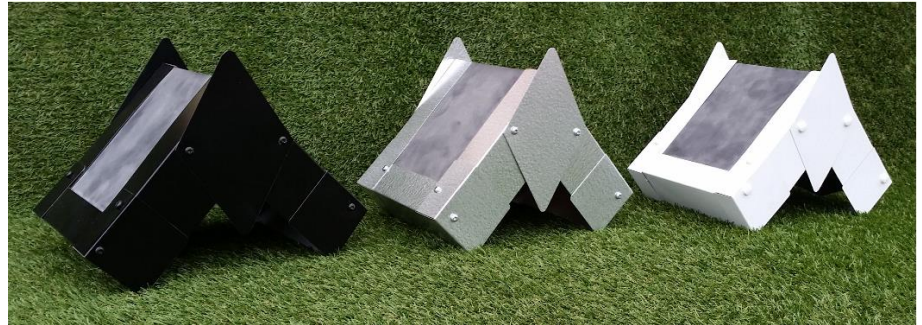

**PROTECT YOUR SHED FOR LIFE FOR LESS**

**NO NAIL HOLES . SEAMS GLUE OR MESS . ONE SHEET NO LEAKS**

Shedsheet is an easy to fit permanent alternative to felt. A single UV stable EPDM rubber sheet, secured with overlapping steel trims available in black, silver or white, which will protect your investment for life, saving you stress & money while your building remains smart & waterproof.

All you have to do is specify your shed size (plus any extra roof overhang) & steel trim pack colour then fit it. Buy a DIY kit or get it fitted – see instructions overleaf.

Add matching Shedsheet Corner Guards for extra protection & elevate the aesthetic of your shed. Corner guards are not available on log cabins or corner buildings.

**Won't tear, crack or degrade.  
UV stable & easy to fit!  
Any building. Any size. Anywhere  
FIT IT & FORGET IT**

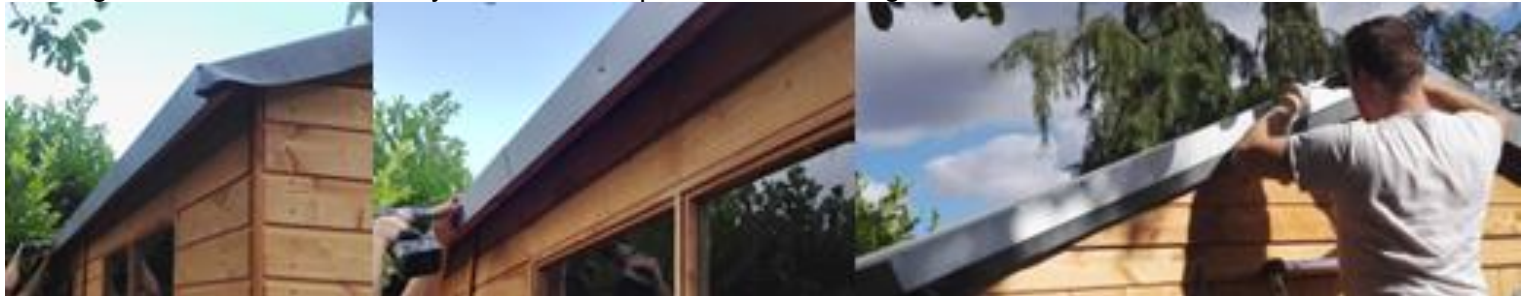

# SHEDSHEET INSTALLATION GUIDE . Waterproof & maintenance free for life in 10 minutes!

Prepare the roof by removing old felt, nails & splinters then ensure the decking is dry & undamaged. Trim back any overhanging branches that rub the roof. Roll sheet lengthways towards middle & back on itself to a manageable size

Lay sheet over the ridge & roll it out, justify, then ideally staple it from the centre on both sides, pulling tight towards the gables. This eliminates any creases & keeps the sheet looking smart. You can also use the trims to do this.

Fix the trims from one end overlapping evenly as you go. Eaves trims are punched in the centre of the face & gable trims in the top. The specifications & guarantee for each kit are attached to the sheet packaging for convenience.

Trim sheet & fix the finials & corners. Install corner guards overlapping downwards.

Always wear gloves & eye protection. Secure ladders safely. Never stand on a roof unless you are sure it is safe. We take no responsibility for injury resulting from installation. Each kit contains :-  
Shedsheet membrane. Pre- punched corners & finials for apex kits, trims & all fixings. Don't forget to add corner guards to your order for extra protection!
